2026 Stallion Collection Contract Shipped Cooled Semen

This document is an arrangement between *Nebraska Equine Veterinary Clinic* and a stallion owner or a mare owner defining charges for a one-time collection, evaluation (percent motility and semen concentration), extending and preparing the semen for transport, and shipment of fresh cooled semen during the breeding season of 2026. This is a one-time fee of **\$400.00**. Any additional veterinary procedures determined necessary for successful semen transport will accrue additional charges (i.e., centrifugation or spinning semen). Payment in the form of cash, check, or credit card is required before the semen is shipped. Shipment will be overnight via FedEx unless another carrier is requested.

Note: Shipping charges are not included in this price and will be added to the invoice total. The average costs of shipping range from **\$100 - \$250.00** depending on the area and/or day of shipping.

Semen collection requests must be made at least 24 hours prior to the date collection is needed, failure to provide necessary notification time may result in additional emergency charges or the inability to collect the stallion.

A deposit of \$150 for the use of the shipping container is required with either a check or credit card. This will be refunded if the container is returned **within 5 business days**. If paying by check, please use a separate check for this deposit to be returned or shredded upon request. Charges pertaining to the return of the shipping container are the responsibility of the mare owner.

If the mare owner requests the semen to be transported by airplane counter-to-counter, then additional charges will be added depending on transportation of semen to the airport and flight expenses. At this time most of these flights will be booked through the company MNXLogistics (with an approximate cost of \$900 to \$2500). Flight details will be provided when the flight schedule is arranged.

Nebraska Equine Veterinary Clinic does not have a tease mare, it is the responsibility of the stallion owner to provide a tease mare for collection, failure to provide a tease mare may result in cancellation of collection. The shipping address, owner of the mare, the mare's registered name and payment information must be provided prior to shipment.

Please provide the following information and sign below, indicating that you have read the 2026 Stallion Collection- Shipped Cooled Semen Contract and agree to the financial arrangements.

Registered Name of Mare: _____ Registration#: _____
Name of Mare Owner: _____ Phone: _____
Address: _____ State: _____ Zip Code: _____
